JILONG® The Inflatables' Expert

COMPANY PROFILE

Shanghai Jilong Plastic Products Co., Ltd. is an export orientated manufacturer of plastic leisure products with a considerable experience in R&D, high quality manufacturing and world-wide sales. Every year JILONG products reach customers in more than 50 countries in Europe, North America, Australia and Asia.

JILONG factory is equipped with its own R&D centre, where a highly professional team collaborates with foreign designers to develop new products and packages. Various technical parameters of each new product have been tested and verified by internal professional lab, such as ITS, TUV and SGS.

JILONG offers excellent quality, competitive price, OEM manufacturing, low minimum order quantities, timely delivery, product warranty and after sales service in Europe and North America. Join us in our effort to make life more fun!

JILONG®

Successful Brand Planogram

JILONG Group offers a wide range of products; Beach FUN series / Above ground POOL series / Comfort furniture RELAX series / SPORT boat series.

JILONG is the 'Inflatables' Expert', providing fun, fashionable, safe and innovative products. We also cooperate with department stores, DIY stores, sport goods stores and professional fishing stores.

Customer satisfaction is important to us. Our world wide after sales service is provided by our consolidating distributors in: Canada / USA / Mexico / UK / France / Spain / Portugal / Italy / Holland / Belgium / Luxemburg / Poland / Hungary / Czech / Slovakia / Germany / Austria/Swiss / Denmark / Sweden / Finland / Russia... (in random order). JILONG's strategy is to provide our customers with quality products, at a competitive price. We also ensure our customers are cared for using our extensive customer support system, and enforcing service based procedures.

AFTER SALES SERVICE SYSTEM ---- for your local customer service centre please go to our website www.jilong.com or call our toll free call centers.

JILONG promises to provide advanced global support to all of its customers. JILONG's website and toll - free call centers work closely with customers to solve problems and provide a personalised approach for any issues that may arise. The JILONG website is multi-lingual and can be used as a knowledge database, providing downloadable manuals, instructional DVD and easy to follow answers to FAQ. Regional toll free call centers, and professional after sales service workers, provide additional support to those people who don't have online access or are unable to find specific answers to their questions.

" PQD(Products Display Quickly) + Paper Pallet " is one kind of high efficient packing/shipping/display method. Compared to normal brown carton package, the largest advantage is the fast speed by using forklift instead of workers in whole process from trasportation/container discharge/storage/convey in hypermarkets. So,it is strongly recommended to all independent -promotion products like Airbed/Family Pool, etc.

Camping Series

As environmental concern is becoming a necessity all over the world, TPU (Thermoplastic Polyurethanes) is ready to be the future material for inflatable products. TPU is totally biodegradable, therefore environmentally friendly, and can decompose itself in 5 to 10 years. Compared to standard PVC commonly used for inflatable products, TPU is innovative and revolutionary, and helps us save our planet, making our lives healthier at the same time.

Super advantages of TPU:

- Resistance to low temperature: TPU can remain a good elasticity in the very bad environment even under low temperature up to -30℃ . No matter where you go, it works!
- Excellent durability: The tensile and puncture strength is twice than traditional pvc products and the seam strength is better as well.
- Super tough: TPU provide excellent support to the people's body, the pressure resistance is 3 times more than traditional PVC.
- Non toxic: eco-friendly completely, contains no heavy metals or toxic chemicals, top healthy for human being.
- Light weight: Weights one third less than a common PVC same structure airbed, very easy to compact and carry to everywhere.

ECO-Nature first™ airbed

- 12.4ga.(0.31mm) TPU laminated fabric material on top, sides and bottom.
- 7.2ga(0.18mm)for coil beam.
- Waterproof ECO material can resist the low temperature up to -30℃ and keeps good elasticity
- Selected super high toughness provides excellent support to your body
- 2 in1 safety valve helps rapid inflation and deflation
- Light weight and hassle free storage makes it convenient for indoor & outdoor use
- Handpump and carry bag included
- Repair kit, color box
